

finance, computer science, operations research, market another hot area you can get into if you do an MBA (Fin). needn't take a year as you switch lanes either!

## Should I drop a year for JEE?

**Q.** I am taking my Class XII boards this month. I'm very confused whether to take admissions in BCA / BSc IT or drop one year to prepare for JEE next year, which I haven't done so far. Please advice.

**A.** Take admission to BCA/BSc (IT) and prepare alongside. If you get through to a good engineering college then switch. Else continue with your BCA or BSc IT and follow it up with an MCA/MSc (IT) or MBA or whatever else catches your fancy at that point of time.
