

## KURUKSHETRA

Kurukshetra is described as DHARAMKSHETRA, with historical and religious importance. Here, the battle of Mahabharata was fought, and Lord Shree Krishna preached the philosophy of "KARMA" as enshrined in the holy book "Shrimad Bhagwad Gita." It is one of the premier pilgrimage center attracting devotees all round the year. Kurukshetra is very well connected by Rail, Delhi-Ambala section, by Road (NH1, connecting Delhi-Chandigarh-Amritsar-Jammu) and by Air (Delhi 160 km and Chandigarh 80 km). The NIT Kurukshetra campus is situated about 10 km from Pipli, Bus stand located on NH1 and about 4 km from Kurukshetra railway station.

## NATIONAL INSTITUTE OF TECHNOLOGY KURUKSHETRA

NIT Kurukshetra, formerly known as Regional Engineering College, Kurukshetra was founded in 1963. It was conferred upon the NIT status, with Deemed University on June 26, 2002. The Institute offers several courses, in various disciplines of B.Tech., M.Tech., MBA and MCA and Ph.D. with an annual intake of about 1500 students. Institute also provides excellent facilities for advanced research in the emerging areas of Engineering, Science, and Technology. The institute has well qualified and dedicated faculty along with supporting staff, laboratories and other infrastructure. The infrastructure is geared to enable the institute to produce technical personnel of high quality.

## SCHOOL OF RENEWABLE ENERGY AND EFFICIENCY(SREE), NITK

School of Renewable Energy and Efficiency was established in 2012. The School offers, M.Tech and Ph.D. Degrees since its inception. Research and development activities on various relevant aspects of non-conventional energy sources have been envisaged keeping synergy with the evolving innovations and developments in Renewable Energy.

## COURSE OBJECTIVES

In the present the need for research scholars to acquire professional skills, in addition to technical and research skills, in order to enhance both community engagement and career success has been increasingly articulated by educators and industry professionals. Professional skills mentioned variously include teamwork, conflict resolution, and an awareness of social justice, sustainability and ethics. Keeping this in mind the short term course is designed for the postgraduate students, research scholars, and early career academics from diverse background in engineering sciences to introduce the basic concepts of research and professional skills. In short this course aims at bringing together experts from diverse fields such as Engineering, Life Sciences and Humanities to share their knowledge and experiences to instill in them an interdisciplinary approach towards problem solving and encourage critical thinking.

#### The specific objectives of the course are:

- To familiarize participants with the basic research methods (both qualitative and quantitative)
- To enhance knowledge base and develop skills of participants for selecting appropriate research technique.
- To develop professional communication skills.
- To provide guidelines about writing project reports, dissertation, thesis, manuscript and project proposals etc. The kind of language to be used and appropriated.
- To provide the participants with a broad overview of design of experiments and techniques.

By the end of the programme, the participants should be confident in using the right methods and tools to carry out their research work. They will also develop communication skills in a variety of capacities including presentations at conferences, getting research papers published, writing skills for thesis and dissertations etc.

## COURSE CONTENTS

- Introduction to Research Methodology and Research Techniques

- Document Preparation: Using Latex
- Data Analytics and Statistical Analysis using R
