### Detailed Proposal

#### I Introduction

Currently there is critical faculty shortage in technical education in the country. The proposed scheme is expected to fill up gap between demand and availability of bright committed aspiring teaching professionals, for example in NITs, taking fresh UG graduates, nurturing them for teaching along with the M Tech degree and PhD research carried out at IITs. The top 15% of the engineering graduates can fulfill their aspirations to receive their degree from leading prestigious Institutes in the country. It is expected that the present faculty crunch could be partially solved by implementing the "Trainee Teachers" scheme.

#### II Objectives

To enhance teaching quality and to address the faculty shortage issue, some of the best engineering graduates (i.e. top 15% meritorious students from the IIT, NIT, IIIT, IISER, NISER and other AICTE/UGC approved

Institutions/Universities) could be attracted, motivated, and mentored. They would be engaged as Trainee Teachers at NITs. While initially they would assist in teaching, they would simultaneously go through part time M Tech and PhD programmes of IITs to acquire higher academic qualifications, which is a prerequisite for faculty at NITs and IITs. Following are broad objectives of this scheme:

- a. Create high quality teachers
- b. To provide attractive teaching cum research carrier path to the UG student
- c. Catch bright UG students to enable them to **Teach and Earn while you Learn** and providing top class training to become good academician / researcher.

### III Key Aspects of the Scheme

Each NIT would work out a perspective faculty recruitment plan for next five years based on current vacancies, projected growth, faculty recruitment through other channels, retirements and expected resignations. The plan should be seen and approved by respective BoG to be consistent with MHRD approved projections and norms for the institute. The number of Trainee Teachers to be admitted in an year would be determined by distributing the admissions roughly equally over a period of five years. The perspective faculty recruitment plan could be reviewed periodically. Other channels of recruitment of faculty should also be pursued in parallel and should be factored in the perspective faculty recruitment plan.

#### Admission Methodology

- i. NITs will advertise and shortlist required numbers of fresh bright B Tech students from the current or one year prior to the current academic year in appropriate branches. These prospective candidates will go through comprehensive fast track screening procedure that meets all requirements for the selection of entry level regular faculty. The selection process would be completed once the candidate is accepted by the concerned IIT for the M Tech and PhD program. These students must satisfy the criteria of being within top 15% ranks and above in institutions of higher standing such as IITs, NITs, IIITs, IISERs, NISER and other Centrally Funded Technical Institutions (CFTIs) or those who are in top 15% from other AICTE/UGC approved Institutions/Universities (non-CFTIs) and having a valid GATE score would also be eligible. The probable number of trainee and their specializations can be decided by the NITs such that the number shall be within a prospective faculty recruitment plan and with prior approval by BoG.

- ii. These short-listed students will be asked for preference of minimum two IITs who offers such scheme. These students will be evaluated by corresponding IITs considering their eligibility criteria and their potential for teaching and performing research for M Tech and PhD program in the NKN enabled virtual learning mode. If the candidate is not selected by IIT for M Tech and PhD program by IITs, he/she will not be offered the trainee-teacher scheme.
- iii. The IITs and NITs will collectively generate broad contours of e-courses to help the trainee to complete most of the credits while serving in the NITs. The trainee teacher will spend one semester in the entire duration of the programme in corresponding IIT for their M Tech and PhD work. Course work would include adequate coverage on teaching pedagogy in addition to covering courses relevant to M Tech & PhD programme.

#### **Duration and Salary**

- i. The Trainee Teachers will mainly help the Institute for Laboratory and Tutorial classes, Research and progressively play bigger role in academics and research in the NITs.
- ii. The status of Trainee Teachers will be like Contractual Employees with annually increasing consolidated salary on an equivalent scale (compensation higher than a regular PhD fellow but lower than an Assistant Professor) with regular leave, medical facilities, accommodation / HRA as applicable, transport allowance etc. Also all the fees and some professional expenses towards the M Tech and PhD programme will be reimbursed through this scheme. Part of the salary will be retained by the Institute, placed in Recurring Deposit (RD) and this would be returnable to the trainee in a phased manner, only after successful completion of PhD.
- iii. It is necessary for the Trainee Teachers to complete M Tech and PhD within 5-8 years. If candidate fails to complete his PhD within eight years, his or her candidature to be in this scheme will be discontinued. The trainee teacher also can opt out of the scheme by giving sufficient notice to the administration and it should be effective only after completing academic requirements towards the end of current semester. In such a case the amount kept in RD will be forfeited.

### Regularization of Candidate

After successful completion of the PhD, the trainee teacher will be absorbed as Assistant Professor at appropriate pay scale in the parent NIT and service rendered as trainee will be counted for various benefits admissible to employees of NITs.

### Implementation Support

The scheme will be reviewed every year by MHRD and after 3 years by an external committee.

### IV Financial Outlay

Financial outlay has been worked out as per unit cost given in Annexure-IVa.

### Financial Requirements for eight years

While the actual numbers to be admitted as Trainee Teachers at a NIT would be based on approved perspective recruitment plan as indicated above, purely for the purpose of working out the budgetary requirements a representative number of 300 Trainee Teachers to be admitted every year for all NITs put together has been assumed. Actual annual budgetary requirements would need to be adjusted based on annual MHRD reviews of the scheme. Table I given below indicates the details of buildup of possible number of candidates in the scheme as a first step

Table – I: Indicative No. of “Trainee Teachers”

Financial Year	2013-14	2014-15	2015-16	2016-17	2017-18	2018-19	2019-20	2020-21#
Total for 30 NITs	300	600	900	1200	1500	1800	2100	2400

# The numbers would stabilize hereafter

Number of Trainee Teachers at any time to be within projected vacancy position at the end of training period of the given NIT(s). In the old NITs, currently there are about 30 to 40% faculty vacancies. In the first eight years of this scheme, it is expected that the number of vacancies would be reduced substantially.

#### **V Operational Details of the Scheme**

For operational clarity, the scheme once approved should be implemented jointly by the IITs and NITs with their roles in the schemes as briefly outlined below.

##### **1) Role of IITs :**

- a. To select students jointly with NITs for "Trainee Teachers" programme
- b. If found suitable, enrol students for M. Tech and Ph. D programmes.

- c. To deliver the programme in Virtual Mode such that the "Trainee Teachers" are available to the parent NIT for a maximum period to facilitate teaching-learning activities at NIT
- d. To deliver contents related to pedagogy which are in addition to the conventional course / programme requirements
- e. To arrange review of progress once in a year by concerned IIT faculty supervisor(s) and representative(s) from sponsoring NIT
- f. Coordinate all activities in regard to its implementation of the scheme with NITs or a centralized body created for its implementation
- g. To nominate one contact / nodal person from each IIT side (may be Dean (R&C) / (Acad.) or equivalent) for its effective implementation, monitoring and co-ordination of the scheme.

**2) Role of NITs :**

- a. To plan and implement the scheme keeping in view the overall requirements of faculty in a given time frames
- b. To identify, shortlist and recommend bright students for "Trainee Teachers" programme
- c. To train TT as potential faculty and facilitate their interaction with IITs for M. Tech and Ph D programmes and also engage them suitably in teaching learning activities in their own institute
- d. To disburse salary and other perks and benefits to "Trainee Teachers" in their respective institutions including fees to IITs.
- e. To possibly join IIT faculty in review of the progress of the TT in Indian Institute of Technology.
- f. To absorb them in regular faculty positions upon successful completion of the Ph D programmes.

**VI Conclusion**

The scheme should be launched from the next academic year 2013-14 itself after obtaining necessary approval from the MHRD and other concerned GoI bodies. Necessary budgetary provisions (for year 2013-14) should also be made for financing the scheme on long term basis. The concerned BoG of every NIT should make effective plans to make use of the scheme to mitigate the shortage of faculty on a long term basis. While doing so, they should adequately balance the recruitments from various channels including the "Trainee Teacher" Scheme. NIT council shall create a sub-committee to co-ordinate and monitor the scheme.

**Item 35.9 To report the case of plagiarism in the Ph.D Thesis submitted by Shri Sandeep Santosh, Assistant Professor, Electronics & Communication Engineering Department.**

Shri Sandeep Santosh, Assistant Professor, Electronic & Communication Engineering (ECE) Department, is a Part-Time Ph.D Scholar in the Institute under the supervision of Dr. O. P Sahu, Professor, Department of Electronics & Communication Engineering. He submitted his Ph.D Thesis on 7.3.2014. The Chairman DRC of ECE Deptt. was asked to submit Antiplagiarism check report on the said thesis by the Dean (Academic) vide letter dated 11.03.2014. The Dean (Academic) made the following observations vide letter dated 24.03.2014 Copy enclosed as ( Annexure - 35.9.i on page 98 ) on the plagiarism check report obtained from ECE Department:

1. *"The work claimed to be his own by the Ph.D candidate is contained mainly in chapters 5 & 6. Both these chapters are almost completely copied from two papers published in IEEE transactions. These papers are indicated as primary sources 1 & 2 in Antiplagiarism check report. In view of the above this thesis is considered to be a case of large scale of Plagiarism and therefore totally unacceptable.*
2. *Under clause-4 of conduct rules (Unfair means & Plagiarism) the submission of the above thesis is a very clear violation of conduct rules requiring initiation of disciplinary action against the concerned employees.*

*In view of the observations, the Dean (Academic) has recommended that the candidate and the thesis supervisor may be asked to give their comments/explanations on the above facts so that further action may be taken as per rules of the Institute."*

In view of the above observations, the candidate and the thesis supervisor were asked vide letter No.Esst.-I/PF/294/3090 dated 28.04.2014 to give their comments/explanations on the above. In response to this Prof. O. P Sahu, Supervisor and Shri Sandeep Santosh had submitted their reply on 30.04.2014.

After considering both the replies, Prof. (Dr.) K. L Chopra (Padamshri) Former Director, IIT Kharagpur was appointed as Chairman of the One-Man-Inquiry Committee to inquire into the alleged case of plagiarism in the Ph.D Thesis submitted by Shri Sandeep Santosh, Assistant Professor.

Dr. K. L. Chopra, Inquiry Officer in the presence of Prof. Baldev Setia, Dean (Academic) conducted the enquiry on 24.9.2014 into the alleged case of plagiarism in the PhD Thesis of Shri Sandeep Santosh, Assistant Professor, Department of Electronics and Communication Engineering and submitted the report Copy enclosed as ( Annexure - 35.9.ii from pages 99 to 101 ).

The recommendations of inquiry officer are as under:

1. *“that Shri Sandeep Santosh be required to submit a revised Ph.D. thesis by deleting the plagiarized parts of the thesis, by clarifying his own contributions, and if necessary by doing some more research work to make the thesis worthy of a Ph.D. of NIT Kurukshetra.*
2. *that Shri Santosh be allowed to continue his Ph.D. registration and submit the revised thesis of original work as certified by a suitable anti-plagiarism tool not earlier than one year after the date of notification by the Academic Section subject to the approval of his Ph.D. supervisor and DRC. It is understood that the candidate will have to satisfy related requirements of the Ph.D. regulations of the Institute.*
3. *The supervisor of a Ph.D. thesis is expected to take full responsibility for the originality of the research work. Regrettably, the supervisor, Prof. O. P Sahu, Electronics & Communication on Engg. Deptt. refused to take responsibility for the act of plagiarism in the thesis of Shri Sandeep Santosh, even though the originality of same has been certified by Prof. O. P Sahu in the submitted thesis.*

*The Institute should issue a warning to Prof. O. P Sahu to the effect that he should have acted more responsibly in this matter. Further, in view of his irresponsible attitude, the Chairman of the Inquiry Committee has recommended that the Institute not to allow Ph.D. supervision of any new research student by Prof. O. P Sahu during the next three years.”*

Further, the inquiry officer has recommended the following for consideration by the Institute:

1. *“The ‘Declaration’ given by the research student and his supervisor(s) on the thesis should state clearly that the research work reported is ORIGINAL.*

Dated : 24.3.2014

Shri Sandeep Santosh Reg. No. 2K07-NITK.Ph.D-1140-EC has submitted his Ph.D thesis on 7.3.2014 (thesis received in Academic Section on 10.3.2014) (flag -'A'). Chairman DRC of ECE Department was asked to submit Antiplagiarism check report on the said thesis on 11.3.2014 vide Dean Academic letter dated 11.3.2014 (flag-'B'). Antiplagiarism check report obtained from ECE Deptt. is enclosed (flag- 'C').

In this context the Dean (Academic) has to make following observations:-

1. The work claimed to be his own by the Ph.D candidate is contained mainly in chapters 5&6. Both these chapters are almost completely copied from two papers published in IEEE transactions. These papers are indicated as primary sources 1&2 in Antiplagiarism check report (Flag-'C'). In view of the above this thesis is considered to be a case of large scale Plagiarism and therefore totally unacceptable.

2.

Under clause-4 of conduct rules (Unfair means & Plagiarism) the submission of above thesis is a very clear violation of conduct rules requiring initiation of disciplinary action against the concerned employees.

In view of the observations in para 1 & 2 it is recommended that the candidate and the thesis Supervisor may be asked to give their comments/explanations on observations contained in para 1 & 2 and appropriate follow up action in the matter may be taken as per conduct rules.

## Report of the Inquiry Officer

To: The Director, NIT Kurukshetra

Ref. No. Estt.-I/PF/294/5730 dated 12.8.2014

As Chairman, One-Man-Enquiry-Committee appointed by the Director NIT Kurukshetra, I, in the presence of Prof. Baldev Setia, Dean (Acad.) conducted the enquiry on 24.9.2014 into the alleged case of plagiarism in the PhD thesis of Sh. Sandeep Santosh, Asstt. Prof. in the Department of Electronics and Communication Engineering.

The following documents formed the basis for the inquiry:

1. Thesis- Hard Copy & Soft Copy on a CD
2. Observations of the Dean (Academic)
3. Report of Anti Plagiarism Tool (turnit in)
4. Reply of Sh. Sandeep Santosh, the Ph.D candidate under inquiry
5. Reply of Prof. O.P. Sahu, Supervisor of Sh. Sandeep Santosh

The following persons were called for discussion:

- a) Sh. Sandeep Santosh, Ph.D candidate
- b) Prof. O.P. Sahu, thesis Supervisor of Sh. Sandeep Santosh
- c) Prof. Umesh Ghanekar, HOD, ECE Deptt.
- d) Prof. A.K. Gupta, former Dean (Acad.) and Prof. ECE

On the basis of extensive discussions with the individuals mentioned above, my observations and recommendations are as follows:

1. The Chapters 5 and 6 of the Ph.D thesis submitted, contain material taken largely from published literature in the field, as also supported by the anti-plagiarism tool (turnit in). Although Sh. Sandeep Santosh has given references of publications from which the material has been taken, yet the language in both the Chapters 5 and 6 indicate as if the plagiarized material is a contribution of Sh. Santosh. Infact, there is a considerable blurring between what is plagiarized and what work the scholar has done.

DRGA  
20/10/14

X

Further, it is not clear in Chapters 5 and 6 as to what original contributions of the candidate are. If the plagiarized material of the thesis is removed, the research contributions do not appear to be significant enough for earning a Ph. D in an institution of national importance.

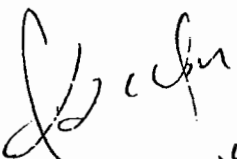

It is, therefore, recommended:

- 1) that Sh. Sandeep Santosh be required to submit a revised Ph.D. thesis by deleting the plagiarized parts of the thesis, by clarifying his own contributions, and if necessary by doing some more research work to make the thesis worthy of a Ph.D. of NIT Kurukshetra.
- 2) that Sh. Sandeep Santosh be allowed to continue his Ph.D. registration and submit the revised thesis of original work as certified by a suitable anti-plagiarism tool not earlier than one year after the date of notification by the Academic Section subject to the approval of his Ph.D. supervisor and DRC. It is understood that the candidate will have to satisfy related requirements of the Ph.D. regulations of the Institute.
- 3) The supervisor of a Ph.D. thesis is expected to take full responsibility for the originality of the research work. Regrettably, the supervisor, Prof. O.P. Sahu, Electronics & Communication Engg. Deptt. refused to take responsibility for the act of plagiarism in the thesis of Sh. Sandeep Santosh, even though the originality of same has been certified by Prof. O.P. Sahu in the submitted thesis.

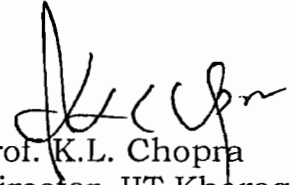

The institute should issue a warning to Prof. Sahu to the effect that he should have acted more responsibly in this matter. Further, in view of his irresponsible attitude, I recommend the Institute not to allow Ph.D. supervision of any new research student by Prof. Sahu during the next three years.

Arising out of the discussions during the inquiry, the inquiry officer recommends the following for consideration by the institute:

- 1) The 'Declaration' given by the research student and his supervisor(s) on the thesis should state clearly that the research work reported is ORIGINAL.
- 2) As far as possible the allotment of supervision of a new research scholar should ensure that the supervisor is interested and competent either directly or in the related field.

  
24.2.2014

- 3) There should be no ambiguity to the fact that the supervisor is responsible for the quality and originality of the work done by a research scholar under his supervision.

**Item 35.11 To consider waiver of tuition fee for SC/ST students in NIT Kurukshetra.**

The Institute received the MHRD letter F.No.33-4/2014-TS.III dated 5<sup>th</sup> May, 2014 (Annexure - 35.11.i from pages 118 to 119 ) regarding enhancement of fee for the various programs in NITs from 2014-15 as per the decision of Council of NITs. In the Para 5 of the letter, Institutes were directed that there will be no change in the existing exemptions of tuitions fee for SC/ST students.

In Para 2 of another letter of the MHRD, F.No.33-4/2014-TS.III dated 26<sup>th</sup> August, 2014 (Annexure - 35.11.ii on page 120 ), the Ministry justified the decision of Council of NITs to lower the tuition fee for Ph.D. program from Rs. 35,000/- to Rs. 15,000/- per student per year from 2014-15 onwards to encourage the Post Graduates to take up the Ph.D. programs. The SC/ST students can avail of 100% fee reimbursement under various scholarship schemes of State Governments. The NITs may facilitate grant of education loans to economic weaker section.

Further, the Institute received an email (Annexure 35.11.iii from pages 121 to 129 ) from MHRD on 22<sup>nd</sup> October 2014 along with attachment MHRD letters - F.No.28-2/2013-TS.III dated 21<sup>st</sup> October 2014, F.No.23-1/2002-TS.I dated 11<sup>th</sup> March 2003, No.F. 21-35/2009-TS.III dated 23<sup>rd</sup> June 2009, F.No.33-4/2014-TS.III dated 5<sup>th</sup> May 2014, and F.No.28-2/2013-TS.III dated 18<sup>th</sup> February 2013 on waiver of tuition fee to SC/ST students. As per Para 4 & 5 of the MHRD letter F.No.28-2/2013-TS.III, dated 21<sup>st</sup> October, 2014, the NITs were further requested to take necessary action and ensure strict compliance of above Ministry's direction. The Para 3(f) of letter F.No.23-1/2002-TS.I, dated 11<sup>th</sup> March, 2003 is reproduced below:

*"The tuition fee for both post graduate (including final year students of dual degree programs) and research students in the IITs be reduced to Rs. 5000/- per annum with no provision for waiver except 100% waiver for SC/ST scholars"*

This Para was applicable for the IITs (and not to the NITs). Now, the MHRD has clarified vide their letter F.No.28-2/2013-TS.III dated 21<sup>st</sup> October 2014 in Para 2 that 100% waiver for SC/ST scholars is also applicable to NITs.

The Institute has been charging full tuition fee from SC/ST students of all the programmes till date. In any of the Ministry's letters or orders it is not mentioned that the fee waiver to SC/ST students would be applicable for B. Tech programmes. However, in the MHRD letter F.No.28-2/2013-TS.III dated 21<sup>st</sup> October 2014, it is mentioned that the Para 3(f) of the MHRD letter F.No.23-1/2002-TS.I dated 11<sup>th</sup> March 2003 is also applicable to the NITs.

In view of above, the BoG may kindly consider the following:

- (i) Giving tuition fee waiver to SC/ST students studying in various M. Tech. programs of the Institute.
- (ii) Deciding the issue of tuition fee waiver to SC/ST students in the B. Tech., MBA (Regular), MCA. (Regular), and Ph. D. programmes run by the Institute.

The Board may kindly decide.

**Subject : Policy Framework for Promotion of Post-Graduate Education & Research in Engineering & Technology - Review -reg.**

Sir,

In continuation of this Ministry's letter No.30-4/2000-TS.I dated 20<sup>th</sup> December, 2001, the undersigned is directed to say that vide letter under reference this Ministry had issued guidelines on *Policy Framework for Promotion of Post-Graduate Education & Research in Engineering & Technology*.

2. Under the *Policy Framework for PG Education and Research* the rate of scholarship for ME/M.Tech scholars and doctoral students were enhanced. Later the rate of emoluments for Junior Research Fellows (JRF) and Senior Research Fellows (SRF) was revised to a different level by Department of Science & Technology (DST) and Council for Scientific and Industrial Research (CSIR). It was noticed that most of premier institutions have scholars funded through the Ministry of HRD as well as through DST / CSIR and other agencies and differentials in rate of fellowships was causing difficulties and tension in these institutions.

3. In order to resolve this anomalous situation, the Policy Framework for PG Education and Research have been reviewed in consultation with DST, CSIR, other Departments, UGC, AICTE and premier academic institutions. While reviewing it was noted that the Council of IITs in its meeting in 1995 had decided that the enhancement of stipends or scholarships given to postgraduate students and research scholars by CSIR be applicable in IITs as well. It had further recommended that in future a unified decision by concerned Ministry / Departments and the UGC be taken. Based on detailed deliberations and consultations, the Government of India has in furtherance to the Policy Framework for PG Education and Research taken the following decisions:

a) *Assistantship* for ME, M.Tech or MS (by research) programmes by the Ministry of HRD may be maintained at Rs.5000 per month as approved in the policy framework for PG education and research in December, 2001. However, the rate of scholarship for M.Tech students need not maintain parity with Junior Research Fellowship (JRF) under the UGC / CSIR. Contingency at a rate of Rs.5000 per annum per scholar (as already

Handwritten notes and signatures at the bottom of the page.

approved in the policy framework) would be available to the Department to meet departmental expenses on research related activities for the postgraduate students. All students getting assistantship would be required to put in at least eight hours of teaching, research and other work in the Institute. Assistantship for MS (by research) could be extended to the third year on case-to-case basis by the Institute.

b) The number of assistantship supported by Ministry of HRD for ME, M. Tech. and MS (by Research) scholars shall be restricted to a number fixed by the Ministry. This shall be provided to the scholars on the basis of merit determined through GATE scores. B.Tech graduates from the IITs getting a CGPA score of 8 or above (on a scale of 10) would also be entitled to the assistantship without having to appear in GATE. Deferred payment of assistantship may be resorted to wherever there is apprehension of scholars leaving the programs mid-way.

c) Students of final year of dual degree integrated programmes would also be entitled to assistantship from the 9th semester onwards in case they get a CGPA score of 8 or above (on a scale of 10). Alternatively they could compete for assistantship through GATE. The number of ME, M.Tech scholars or students of dual degree programmes getting assistantship on the basis of CGPA scores would be included in the numbers of assistantship fixed by the Ministry of HRD. Information of these numbers will have to be provided to the Ministry annually.

d) Support for doctoral programmes by the Ministry of HRD be termed as *Research / Teaching Assistantship*, the rate of this assistantship shall be enhanced to bring it to the DST/CSIR level. Contingency at a rate of Rs.20000 per annum per scholar (enhanced from Rs.10000 to bring parity with CSIR system) would be available to the Departments of IITs to meet departmental expenses on research related activities for the doctoral students. All scholars getting *Research / Teaching Assistantship* would be required to put in at least eight hours of research or teaching in the Institute. Enhanced rates shall be as follows.

Qualifying degree	First 2 years	For next 2 years
BE / B.Tech. / M.Sc. or Equivalent	Rs.8000 pm	Rs.9000 pm
ME / M.Tech. / MBBS or Equivalent	Rs.9500 pm	Rs.10000 pm

e) The rate of fellowship for QIP scholars registered for Ph.D. programmes would also be enhanced to the DST / CSIR level.

f) The tuition fee for both post graduate (including final year students of dual degree programs) and research students in the IITs be reduced to Rs.5000 per annum with no provision for waiver except 100% waiver for SC / ST scholars.

g) Research / Teaching Assistantship for scholars at enhanced rate be restricted to 4 years as already approved in PG Policy Framework. All students in the first three years will automatically be covered under the revised scheme and scholars in 4<sup>th</sup> year may be

14

given an option either to continue at the pre-revised scale with a provision for extension by another year or opt for enhanced rate with 4-year time limit:

h) IITs may appropriately allocate number of assistantships to the emerging and thrust areas in engineering.

3. The above decisions will be given effect from the next academic year i.e. 1<sup>st</sup> July, 2003.

4. It is advised that different provisions in the on going programmes/schemes for PG education & research may be suitably modified by all concerned to bring them in conformity with the above decisions. All Organizations / Institutions are advised to absorb the additional requirement of funds due to enhancement of assistanceship / research fellowship within their existing non-plan budgets.

Yours faithfully,
