*Question 28 : I am unable to login into the NSP for renewal of ST scholarship using the same ID that I received last year. Website says no record found. What is the reason ?*

**Answer 28 :** The reason for why you are unable to apply in NSP with previous year Application id is that because in last year you have filled the Course duration details in Course Year column. In the course year you have to mention present year in which you are studying . Might be you have filled complete duration of your course in Course Year column. **For example :** Your present course year is 2 and Duration of your course is 3 . In NSP last year in your application under course year column you have filled "3" instead of "2", so NSP picks up from Course duration database that your course has already been completed.
