The Senate discussed the issue w.r.t. two aspects:

- 30.05.1 Possible shortcomings in the existing rule of re-evaluation.  
30.05.2 Continuance/Discontinuance of the procedure of re-evaluation.

For 30.05.1, it was decided that if the re-evaluated marks change the status of a student in that paper from "Fail to Pass", it will be considered, even though the change in marks may be less than 15%. This shall also apply to the existing candidates whose cases are under consideration presently.

For 30.05.2, it was decided to discontinue the practice of re-evaluation in future. However, the following practice of appeal in force shall continue.

A student not satisfied with his marks may approach the faculty. If satisfied, ok.

If not satisfied, he/she can approach the coordinator of that course. If satisfied, ok.

If not satisfied, the student may approach the Head of the Department and request the Head of the Department in writing. Head of the Department may constitute a committee of 2-3 faculty. The decision of the committee will be final and binding.

This is for kind information and necessary action.

### 2.7 Attendance Rule

3. All students must attend every class and 100% attendance is expected from the students. However, in consideration of the constraints/ unavoidable circumstances, the attendance can be relaxed by course coordinator only to the extent of not more than 25%. Every student must attend minimum of 75% of the classes actually held for that course.

4. A student with less than 75% attendance in a course during the semester, will be awarded W grade. Such a student will not be eligible to appear for the end semester and re-examination of that course. Even if such a student happens to appear for these examinations, their answer books of such students will not be evaluated.

A student with W grade is not eligible to appear for Re-examination and summer term also.

5. Students will be informed about their attendance status after the 1<sup>st</sup> and 2<sup>nd</sup> sessional examinations.

### 2.8 Additional rules for M.Tech / M.Sc

#### 2.8.1 Leave rules

A full-time M. Tech. Student during his/her stay at the Institute will be entitled for 30 days leave (including leave on medical grounds) per academic year. Full time M. Tech. Students do not have vacation. Even during mid-semester breaks and summer and winter vacations, he/she will have to explicitly apply for leave. He/she, however, may be permitted to avail leave only up to 15 days during winter vacation at the end of the first semester. The leave will be subjected to approval of the Head of Department concerned and the department concerned shall be responsible for maintaining proper leave account of each student.

#### 2.8.2 Assistantship Requirements

M. Tech. student irrespective of the source of assistantship must attend at least 75 % of classes in each course in which he/she is registered. In case his/her attendance falls below 75 % in any course during a month, he/she will not be paid assistantship for that month. Further, if his/her attendance again falls short of 75 % in any course in any subsequent month in that semester, his/her studentship and assistantship will be terminated.

All students who are offered assistantship are expected to put in 8 hours per week towards the work assigned by the Department / Faculty.

Continuation of assistantship in a subsequent semester would be subject to the condition of obtaining a satisfactory academic performance and assigned task. If CGPA of a student falls below 6.75, then, his/her stipend will be reduced. However, in the subsequent semesters, if student improves the CGPA equal to or above 6.75, then, stipend will be restored, only after a gap of one semester.

If student gets FF grade in one or two courses, then, stipend will be reduced. As and when student will credit that course with pass grade, then, stipend will be restored only after a gap of one semester.

one student of a program, i.e. if there is a tie, SGPA of previous semesters will be considered till the tie is broken.

2. **Endowment Gold Medals:** These medals are awarded by donors to students in appreciation of their academic performance. The rules and procedures are to be approved by the Senate in case-to-case basis. If the highest CGPA is secured by more than one student of a program, i.e. if there is a tie, SGPA of previous semesters will be considered till the tie is broken.

In case the highest CGPA student(s), in a particular branch(s), could not clear all papers in single chance or been awarded punishment by the Institute's Disciplinary Committee, no other student(s) will be awarded with Institute Gold Medal for that branch(s). Similarly, Institute Gold Medal for Best Graduate will not be awarded to others on above ground.

- 13.7 On publication of final results a student will be issued a provisional certificate signed by Dean (Academic) on behalf of the Director. The final degree will be signed by the Chairman, Senate and Chairman, Board of Governors.

#### 14 **Scholarship**

- 14.1 M. Tech students admitted through CCMT are entitled to get scholarship governed by the rules of MHRD.
- 14.2 All students receiving scholarship will be required to assist the Department in teaching activity (sessional, laboratory etc.) and other academic activity; the quantum of such contribution being decided by the administration from time to time. However, HOD shall ensure that due to such assignment the students do not miss their classes.
- 14.3 If a student remains unsuccessful in a semester examination, the scholarship will be immediately stopped. However, the same will be restored as and when he /she passes the examination.
- 14.4 If a student abandons his study prematurely he will be required to surrender the scholarship received, without interest. In case of being terminated due to poor performance, normally there shall be no recovery. But, if the DPAC is convinced that the student consciously performed poorly only to avoid paying back the fellowship received, it can still recommend recovery of the fellowship paid. In both cases, the institute will normally not pursue the recovery, e.g. through a law court, but will deny certificates and other privileges if requested by the student.
- 14.5 A student remained absent without sanctioned leave will entail loss of scholarship for the period of absence and may result in the termination of the students' program.

#### 15 **Exceptions & Dispute Resolution**

- 15.1 Notwithstanding anything stated in the rules, the Senate can make special provisions and exceptions depending on the merit of a case. Such cases shall not be cited as precedence in future occasions of similar nature.
- 15.2 In emergency situations, the Director in capacity of the Chairman of the Senate, can exercise powers of the senate and discharge the functions of the Senate. Such decisions must be reported to the Senate at its next meeting.
- 15.3 Whenever a dispute arises regarding interpretation of one or more provisions of these rules, the matter shall be referred to the Board and the interpretation given by the Board shall be considered correct and final.

### Report on the status and quality of work done by the student.

It has been reported that the M-Tech. student (Roll No. 3127006), has done an excellent research work on the topic of "*An experimental investigation of Concentrated Solar Power (CSP) using convex lenses for water heating system*". He, under my guidance, has invented a new "Concentrated Solar Power Collector with Convex Lenses for Water and Air Heating". This invention relates to the utilization of solar energy using closed Hemi-cylindrical Solar Heat Collector, which fulfills the gap between conventional Flat Plate Collector (FPC) and Concentrated Collector. The glazing of FPC has been replaced by an array of convex lenses, which concentrate the solar radiations on absorbing plate for generation of hot water or air by the natural thermo-syphon principal.

It is worth mention here that earlier the student had been doing his dissertation work under the guidance of Dr. Sudhir Saxena (Retd. Professor, Mech. Engg. Dept.), later on, he started doing his dissertation work under my guidance after the retirement of Dr. Saxena, with the approval of the co-ordinator (School of Renewable Energy and Efficiency).

Further, the work assigned to the student by me was with the aim of the new invention, for which a patent would be filed, and the student performed very well. At present, we are in the process of filing a patent on the same invention.

The student has completed his experimental and analysis work and the thesis report is ready to be submitted.

  
26/9/17  
(Dr. Rajneesh)

Student who earns an E Grade in course shall have to re-appear in that course again when it is offered.

- 3.3** The Course Co-ordinator of the course will compile all the marks and will award the Grades. He/she will submit a copy of award list to Controller of Examinations for the preparation of result. Once Grades are submitted, any correction thereafter will only be made with the approval of the Director on the recommendations of the Dean Academic.

#### **4.0 General**

- 4.1** CGPA is the weighted average of all the Grades awarded to student since his/her entry into the Institute upto and including the latest semester and computed as follows:

$$CGPA = \frac{\sum C_i G_i}{\sum C_i}$$

Where  $C_i$  denotes credits assigned to  $i$ th course and  $G_i$  indicates the Grade point equivalent to the Letter Grade obtained by the student to the  $i$ th course.

Provide that when a student repeats a course, the new Grade will replace the earlier one in the calculations of the CGPA.

**Note :**

The Percentage of marks obtained by a student if so required, can be calculated as=CGPA multiplied by 9.00.

- 4.2** At the end of each semester (i.e. after End Semester Examination), students will be supplied a Grade Card indicating the Grade secured in each course and up to date CGPA.

- 4.3** A Student is deemed to have completed the requirements for graduation and is eligible for the award of degree if :

- (a) he/she has satisfied all the academic requirements as per the regulations.
- (b) he/she has paid all fees due from him/her.
- (c) there is no case of indiscipline pending against him/her.

#### **5.0 Absence/Dropping of Semester**

- 5.1** If a student absents from the Institute with due permission of the Dean Academic due to illness, he/she will be permitted to rejoin provided the period of absence does not exceed one semester. If the period of absence

is more than one semester or the absence is for reasons other than illness, the case will be referred to the Director by Dean Academic Affairs with his/her recommendations.

The student will, however, be charged the prescribed fee even for the period of absence. In no case, the total period of absence shall exceed two semesters during student's stay in the Insitute. In that evertuality, the student's name shall struck off from the rolls of the Insitute.

**5.2** In case a student absents from the Institute without prior permission, he/she may be permitted to join back with the permission of the Director on payment of penalty or Rs. 10,000/- in addition to the prescribed fee for the period of absence.

In no case, the period of unauthorized absence will exceed one semester. If the period of unauthorized absence exceeds one semester, the student's name will be struck off from the rolls of the Insitute.

A student will be allowed to study the courses as defined by a department carrying prescribed credits. The total period of stay at the Insitute for award of M.Tech. degree will not, in any case, exceed 5 years (Ten Semesters).

**5.3** The gap in studies, if any, will count towards the total duration of the Programme permissible under the Regulations.

**5.4** The minimum CGPA required for the award of degree is 5.50. If a student after obtaining pass Grades (A/B/C/D) in all courses at the end of the programme obtains a CGPA less than minimum CGPA = 5.5 required for the award of degree, he/she may be allowed by Dean Academic to improve the CGPA by studying the course(s) in which he/she has earned 'D' Grade(s) provided the said courses are offered in the semester under consideration of additional semester(s) for improvement will be counted within maximum duration permissible for the programme.

**5.5 Appeal**

Notwithstanding the above, the Senate may at its discretion on appeal, relax any of the conditions of Caluse 5.1 and 5.2

**Item 31.7 To consider and decide norms for change of branch to B.Tech. students.**

The Senate in its 3<sup>rd</sup> meeting held on 26.5.2004 (pages 54 to 57) allowed change of branch to B.Tech students in 3<sup>rd</sup> semester on the basis of CGPA obtained in first year of their study, subject to the condition that the number of students in a particular branch does not fall below 75% of the sanctioned strength. In case of tie, the rank in the AIEEE/JEE (Mains) may be considered as tie breaker. If there are some cases of tie, the break-up of marks obtaining 10+2 qualifying examination may be taken into account to break the tie.

This year during branch change of B.Tech. 2016 batch, two students of PIE branch made representation to the Director that due to existing branch rule of 75% of the sanctioned strength, they are not eligible for branch change even though they are top rankers in their branch based on CGPA of first year. The representation of the students are enclosed from (pages 58 to 59).

The Senate in its 30<sup>th</sup> meeting held on 6.6.2017 approved new scheme and syllabi for B.Tech. programmes w.e.f. academic session 2017-18. In new scheme, the students of B.Tech. 1st and 2<sup>nd</sup> semester of all programmes have to study some branch specific courses also.

In view of above, the Senate may kindly decide on (i) the representation of the students for branch change at this stage and (ii). The modalities for change of branch for B.Tech. 2017 batch onward.

Documents as enclosed from (pages 60 to 63) may be referred for decision.

It is proposed that students who intend to change their Branch may be allowed to do so in the 3<sup>rd</sup> Semester on the basis of CGPA obtained in 2<sup>nd</sup> semester i.e. 1<sup>st</sup> year of their study, subject to the condition that the number of students in a particular branch does not fall below 75% of the sanctioned strength. Subject : Application for Branch change.

Respected Sir,

I am currently passing B.Tech. in Production and Industrial Engineering Batch-2016-17. Sir, I filled up the form for branch change which was rejected on grounds of senate norms of less candidates in my branch than required number (which is 75% of total sanctioned seats i.e. 69).

Sir, I acquired a decent position in college academic examination for which I worked really hard. I got 3<sup>rd</sup> rank in my department and scored around a CGPA of 9.365 in examination. Sir, I have a sheer interest in C.S.E or I.T. field. Sir, please look into the matter and try to amend the senate rules to a reasonable one, so that we can get a branch of our interest.

Sir, please guide me further what I can do to get my branch changed.

Thanking you in anticipation.

Yours obediently,

Pravesh Kumar Upadhyay

**Item 31.8 To consider and decide mercy chance to appear for backlogs for the students who have completed maximum duration of their respective degree programmes.**

As per academic regulations, the maximum duration in which a student must qualify for the award of UG and PG degrees are as follows:

B.Tech. Programme:	8 years
M.Tech. Programme:	5 years
MBA Programme:	4 years
MCA Programme:	6 years

The students of B.Tech. 2009 batch have already completed maximum duration to complete their respective degrees. Some of the students have requested to give them a mercy chance so that they can clear re-appear papers and become eligible to receive respective degrees. The request of these students and their backlog data are enclosed from (pages **66** to **80**).

At the time of Institute's Golden Jubilee Celebrations, the Senate in its 22<sup>nd</sup> meeting held on 10<sup>th</sup> April 2013 vide item no. 22.3 allowed the students to appear in theory/practical/sessional exams to the students who could not pass their degree in the maximum duration of the course. Other modalities of mercy chance to the students are enclosed from (pages **81** to **86**). The Institute allowed B.Tech. 2007 batch a mercy chance in Special Re-appear Exam. conducted in July/August 2015 (page **87**) with a condition that the student should be having only one re-appear in any of the semester so that they can clear their re-appear and become eligible to receive respective degrees. In 2016 (page **88**), B.Tech. 2008 batch, M.Tech. 2011 batch, MBA 2011 batch and MCA 2010 batch were also given mercy chance with a condition that they have few re-appears in any of the semester so that they can clear their re-appear and become eligible to receive respective degrees.

It is proposed to conduct the special examinations for the backlogs for the students who have completed maximum duration of their degree programmes, during the sessions May/June 2018 & Nov./Dec. 2018. This schedule may be helpful to inform the concerned students well in time & further provides sufficient time for the exam. preparations.

In view of above, the Senate may kindly consider on modalities of mercy change for the students of all UG & PG programmes who have completed maximum duration of their respective degree programmes.

**Item 31.9 To decide Institute fee to be charged from the students repeating semester courses due to detention and other reasons.**

The Institute allows to repeat semesters to the students for the courses in which they were detained during their regular study in every semester on the request of the students and the approval given by the Dean (Acad.). Such students are to be charged prescribed institute fee applicable for their batch for that semester.

It is pertinent to mention that these students have already paid their prescribed institute fee in their regular study. These students also not allowed to take part in the institute activities, hence the fee charged from them seems to be higher side. In some cases, students studied only one/two or few courses in the semester and has been charged full institute fee. The concerned students and their parents also approached the Dean (Academic) for relaxation of fee.

Some students were allowed to repeat semesters/courses in even semester of academic session 2016-17 with the permission of the Dean (Academic). While issuing the office order, the students were informed that they have to pay institute fee as decided by the Competent Authority. The approval and the office order of such students are enclosed from (pages **91** to **103**). It was decided by the then Dean (Academic) to place this issue in the next Senate meeting as agenda item, but it could not be placed. Fee collection from such students is still pending.

In view of above, it is proposed that the fee from above students may be charged as per following formula:

$$\text{Fee} = \{(\text{Tuition fee})/\text{No. of courses}\} \times \text{Repeat Courses}$$

Tuition Fee	The tuition fee applicable to his batch in the respective semester
No. of Courses	No. of courses in the respective semester including all theory/practical/project etc. courses
Repeat Courses	No. of courses in which the student was having detention and decided to repeat these courses to get normal grade

In addition to this fees, the student need to pay hostel room rent as per availability and allotment to him/her and other miscellaneous expenses during his study in that semester.

The Senate may kindly consider the above proposal and approve the proposed fee to be charged from such students.

The following students were allowed to repeat respective semesters for courses in which they were detained during their regular study:

Sr. No.	Roll No.	Name	Branch	Sem.	Detained in Courses	Remarks
1	1120443	Abhishek Verma	ECE	8 <sup>th</sup>	ECT-408 ECT-410 ECT-414 ECT-422	He is detained in 4 courses
2	1140231	Shubham Yadav	Computer Engg.	4 <sup>th</sup> 5 <sup>th</sup>	COT-202 COT-204 COT-206 COT-208 COT-210 COT-212 COT-214 COT-216 COT-218 MAT-204 COT-301 COT-303 COT-307 COT-311 COT-313 COT-315 COT-317 COT-319 COT-341 HUT-311	Year back and requested to study from 4 <sup>th</sup> sem. onwards with lower batch

5	4141032	Parteek Kumar	MBA	4 <sup>th</sup>	MBA-202 MBA-204 MBA-224 MBA-244 MBA-254	He is detained in 5 courses

In the respective order they were communicated that they will pay semester fee as decided by the competent authority. As per past practice the institute charged full semester fee from the students respective of no. of courses to be studied by the student. This fee is additional to the fee paid by them during their regular study of the programme.

In this regard the academic section received several requests from the parents of the students to rationalized semester fee in ratio of the courses to be studied by the student. The demand of the students & parents are genuine and the fee for repeating student should be decided respectively.

In view of the above, it is proposed that the fee to be charged from above students may be charged as per the following formula:

$$\text{Fee} = \frac{[(\text{Tuition Fee}) / \text{No of Courses}] \times \text{Repeat Courses}}$$

Tuition Fee :-	The tuition fee applicable to his batch in the respective semester
No of Courses :-	No of Courses in the respectively semester including all theory/practical/project etc. courses.
Repeat Courses :-	No of Courses in which the student was having detention and decided to repeat these courses to get normal grade.

In addition to this fees the student need to pay hostel room rent as per availability and allotment to him/her and other miscellaneous expenses during his study in that semester.

The Director may kindly approve the proposal so that the fee may be charged from above mentioned students.

Submitted for your kind approval please.
