NATIONAL INSTITUTE OF TECHNOLOGY KURUKSHETRA
(Institution of National Importance)

Two Days National Workshop on Value Based Education April 09-10, 2022

Introduction

Ethics and values are fundamental to any civilized society. History of the world civilization shows that societies have risen to a higher level not through mechanical or technological efficiencies, but by practicing sound moral and ethics values. We are living in a society where presently values have lost their significance and unethical practices are widely accepted and justified as a way of life. The situation is deteriorating so fast that unless some urgent corrective measures are taken, we would soon reach a point of no return. Corrective measures may start at the basic levels of society, in families and in educational institutions. Let's focus on what needs to be done in educational institutions.

It was proved without doubt over centuries that no nation has ever risen to the stature of a world leader or a happy nation without educating its subjects. The role of Universities and Centres of Excellence was never in question. Creativity, innovation and hands on experience were given importance and nature was the experimental laboratory to unravel the secrets of the universe. The Universities in the form of Nalanda and Takshashila rose to stature of international level learning Centres of nurturing young minds to explore themselves and unravel the secrets of nature in a variety of trades known as 64 art forms. They explored skills through recitation, hands on experience and experiment learning. The famous Guru Shishya Parampara was passed on through ages and generations.

“Our world so desperately needs hope. Values-based Education is bringing this hope, by creating a transformational movement that has the potential to transform education and society, so that we can live in peace and harmony with each other; ensuring the sustainability of our planet.”

Dr Neil Hawkes, founder of VbE

The very purpose of education is to develop all round and well balanced students. While information oriented education takes care of the intellectual development which has been at the forefront of our educational policies since Independence till date. Value based Education nurtures all aspects of Holistic Personality Development which include Physical Quotient (PQ), Intelligence Quotient (IQ), Emotional Quotient (EQ) and Social Quotient (SQ).

Value Based Education

Values-based Education is an approach to teaching that works with values. It creates a strong learning environment that enhances academic achievement and develops students' social and relationship skills that last throughout their lives. The Objective of Value Based Education is to develop good moral values among the students.

Value-Based Education (VBE) is a critical component that influences moral, ethical, cultural, social and spiritual principles that are required for student's holistic development. The Values-

Based Education approach offers a fresh perspective on education and how students might be helped to grow into happy and successful members of a global society.

Value-based education fosters a positive learning environment that improves academic performance and fosters lifelong social relationship skills.

Value education is an explicit attempt to teach about values and/or valuing. Superka, Ahrens, & Hedstrom (1976) state there are five basic approaches to values education: **inculcation, moral development, analysis, values clarification, and action learning.**

In India Value Based Education is the real need of the hour. As we see how the Society is diminishing in case of values day by day. It is necessary to develop the programs for inculcating values in the society. Today's Indian youths are little bit confused because of the bombarding of the new technological devices, information explosion and violent news by the press & media. To inculcate the value system in their confused minds and make them value-oriented-powerful leaders, educational institutions should take the initiative to impart Value Based Spiritual Knowledge to this new generation.

“Imbibing the qualities of good conduct, self-confidence and high values would help students earn a significant place in society. Education without values is like a flower without fragrance. Students should realize that character building is equally important as career building. A good character in life is ultimate thing that stretches person's self-realization”.

One of the major objectives of the New Education Policy (NEP 2020) is to emphasize on Value Based Education system. Therefore, this Workshop is being organized at NIT Kurukshetra to introduce Value Based Education in the Institute and create awareness among the Faculty, staff and students.

Objectives

1. To deliberate upon the Importance of Value Based Education in present scenario.
2. To move from Outcome Based Education to Value Based Education.
3. To contribute to the Holistic Personality Development of the Students.
4. To design the Curriculum according to the Value Based Education.
5. To promote Train the Trainers Program according to Value Based Education.

About Kurukshetra

Kurukshetra, steeped in history and mythology, is a place of great spiritual significance where Lord Krishna delivered the divine message of Shrimad Bhagwat Gita. This place from where knowledge spread far and wide was chosen as his capital by King Harshwardhana. It is one of the premier Centre of pilgrimage, attracting devotees in a steady stream all-round the year. Kurukshetra is a railway junction on the Delhi- Karnal-Ambala section of the Northern Railway. It is about 160 kms. from Delhi. The Institute is about 10 kms from Pipli, a well-known road junction on the Sher Shah Suri Marg (NH-1), and about 5 kms from Kurukshetra Railway Station.

About the Institute

National Institute of Technology, Kurukshetra, one of the 31 NITs in the country, is a premier center of learning and research in various disciplines of Engineering and Management. It trains and develops high caliber professionals to serve not only the country but also the world at large. Established in 1963 as an REC, the college was elevated to a National Institute with Deemed University status in June 2002. The Institute has made rapid strides in expanding and upgrading facilities, enhancing the quality of education and strengthening the linkage with industry. The Institute has B. Tech, M. Tech, MBA and MCA Courses in various disciplines. Institute also offers excellent facilities for advanced research in the emerging areas of Science and Technology leading to Ph.D. degree. The institute has well qualified and dedicated faculty along with finest supporting staff, laboratories and other infrastructure. The syllabus and the curricula are constantly being updated to meet the growing demands and need of the country in different areas of technology. The infrastructure is geared to enable the Institute to turn out technical personnel of a high quality.

Participants

The workshop will be organized in the blended mode. The Participants will be Faculty and students of the Institute. Efforts will be made to ensure maximum participation from various technical Institutes/universities. The faculty members of the Institute and participants from other Universities/Colleges are requested to submit the registration form by April 07, 2022.

Experts

- Renowned academicians will be invited for the workshop.
