

## About the Institute

National Institute of Technology, Kurukshetra, one of the 31 NITs in the country, is a premier center of learning and research in various disciplines of Engineering and Management. It trains and develops high caliber professionals to serve not only the country but also the world at large. Established in 1963 as an REC- a joint enterprise of the Government of India and the Government of Haryana- the college was elevated to a National Institute with Deemed University status in June 2002. The Institute has made rapid strides in expanding and upgrading facilities, enhancing the quality of education and strengthening the linkage with industry. The Institute Alumni are well placed in the reputed organizations in India and abroad.

## About the Department

The department of Humanities and social Sciences is one of the thirteen teaching departments of the institute, equips students with the knowledge and social skills that help them successfully manage people and technology. The department is continuously involved in expanding the teaching-learning process to integrate humanistic values and social concerns with technical education. The department also provides research facilities in the area of Management, Economics, Psychology, English and Intellectual Property Rights. The department has taken a lead role in implementing NEP 2020 by introducing a set of courses for the holistic development of students.

**Introduction**

Medium term growth projections for the Indian economy vary between 5 and 8 percent annum. The optimists base their projections on the recent increase in consumption demand and capital expenditure and expectations of high growth of exports. The infrastructure push by the government is also seen as a contributing factor to high growth prospects in the medium term. With Russia-Ukraine war far from over, inflationary pressures persisting and increasing interest rates, the demand is expected to remain subdued in the near term. High unemployment, growing inequality, worsening environment and changing demographics poses continuous challenges to India economic growth.

**Main Objectives of the Seminar**

The prime objective of the seminar is to develop an understanding of the factors affecting current status and future growth prospects of the Indian economy. Keeping in view, the present scenario of the Indian economy, it is well-known fact that India has to confront many challenges to become the future economic giant, which should be addressed at the national and global level if India has to achieve the pledge of sustainable and stronger growth performance and to become economic powerhouse by 2047. All this requires collaborative and collective actions to assure intergenerational equity and avoid the risk of failure. Therefore, future prosperity must be earned in similar fashion as the present-day developed economies earned their success in the past.

**Call for Papers/Posters**

Participants are invited to submit abstracts/posters relevant to the theme(s) of the seminar. Abstracts for oral presentation (300-500 words; excluding author names and affiliations) and full length paper (4000 words) in, Times New Roman, MS Word Format, Font 12 & line spacing of 1.5 must be submitted at [seminarie2023@gmail.com](mailto:seminarie2023@gmail.com)
