## Message from Dean Students' Welfare

The office of the Dean Students' Welfare congratulates and welcomes the batch of 2024 at the National Institute of Technology Kurukshetra. It gives me immense pleasure to inform you that the office is committed to work for the welfare of the students at various levels. Taking cognizance of the social, economic and cultural diversities, we strive to render all the facilities that will allow the young entrants to be enthusiastic and motivated to demonstrate their skills and talents. Holistic development of the students is our prime motive.

The office of the Dean Students' Welfare ensures the overall growth of the students by providing ample opportunities and a platform to the students to showcase and chisel their personality traits. We believe that in maintaining a balance between academic and extracurricular activities as the aim of education is not only to support academic excellence but promote all round development of an individual - the holistic personality development - which suggests development of intellectual, psychological, physical, emotional and social skills to help an individual meet life's demands and challenges. These skills are very critical to be successful in life - both at personal and at professional fronts. Hence, at National Institute of Technology Kurukshetra we have meticulously designed many innovative techniques, activities and workshops that will foster development of a balanced personality.

Our focus is to promote value based education because "Education without morals is like a ship without a compass, merely wandering nowhere" (Martin Luther King Jr.). Therefore, students are involved in a variety of activities - sports, literary, cultural - including management and functioning of hostels which calls for demonstration of leadership skills and sensitivity to understand the needs of different stakeholders. A 'Student Council' is involved for encouraging students' participation in maintaining discipline and sharing their ideas, interests and concerns. Thereby, initiating a culture of cooperation, fraternity, assimilation, accommodation and unity among the students further contributing towards strengthening of the social fabric of the nation.

We are proud to inform you that the campus of the Institute is ragging free. The Institute follows the policy of zero tolerance towards incidents of ragging, substance abuse, eve teasing or any other criminal activity. Students are strictly warned to refrain from such activities and any person found guilty will be subjected to strict disciplinary action as per law. Physical violence or any other form of abusive behaviour towards fellow residents will not be tolerated within or outside the premises of the institute. Anyone found guilty of the same will be liable for strict disciplinary action to the extent of suspension or rustication as per case. Public display of affection is strictly prohibitive.

I hope this handbook will provide all the necessary information about the institute. The principal objective of this office is to extend all possible aid for the growth and progress of the students. The office of Dean (Students' Welfare) is always open for the students and we invite suggestions for improvement.

I wish you a very happy, healthy and comfortable stay on the campus.

Dean (Students' Welfare)

# **THE INSTITUTE**

National Institute of Technology, Kurukshetra (founded as Regional Engineering College, Kurukshetra) is a premier technical Institute in the region. Since 1963, like other Regional Engineering Colleges of India, this Institute too, has been a joint enterprise of the State and the Central Governments. This Institute was conferred upon the status of Deemed to be University, along with other Regional Engineering Colleges on June 26, 2002. Since then it has been renamed as National Institute of Technology, Kurukshetra and is a centrally funded Institute. The Institute has been declared an Institution of National Importance by MHRD, Govt. of India.

The first admission to five-year B.Sc. (Engg.) degree courses were made by the college in July, 1963 at Punjab Engineering College, Chandigarh and Thapar Institute of Engineering and Technology, Patiala, with 60 students at each place.

The Institute started functioning in this present campus at Kurukshetra in 1965-66, with 120 students admitted in the first of the five-year courses of study for the B.Sc. (Engg.) degrees in Civil, Electrical, and Mechanical Engineering. The annual intake was increased to 250 students in 1966-67. B.Sc. (Engg.) degree course in Electronics and Communication Engineering was started in 1971-72. In 1967-68, M.Sc. (Engg.) degree courses in Civil, Electrical, and Mechanical Engineering, and in 1971-72, postgraduate diploma courses in Civil, Electrical, and Mechanical Engineering and in the same year, a postgraduate diploma course in Scientific Instrumentation, were started. In July 1976, part-time M.Sc. (Engg.) degree courses in Electronics and Communication engineering, was Instituted. The first registration for the degree of Doctor of Philosophy in the Faculty of Engineering and Technology was made in July, 1967.

The Institute changed over from five-year degree programmes to the four-year degree programmes with effect from the academic year 1985-86. The new degree was called B.Tech. Special three-year degree courses in Civil, Electrical, and Mechanical Engineering, designated as 'Bachelor of Engineering', for in-service engineering diploma holders were started in the session 1982-83. These courses have now been discontinued.

The M.Sc. (Engg.) degree courses in various disciplines were redesignated as M.Tech. degree courses with effect from the session 1983-84. The full-time M.Tech. degree courses are of four semesters duration.

The Institute, in the session 1987-88, started a four-year B.Tech. degree programme in Computer Engineering, with intake of 30 students. The Institute also introduced a full time M.Tech. degree course in Electronics and Communication Engineering with an intake of 30 students. The intake of B.Tech. Electronics and Communication Engineering degree course was increased from 30 to 60 from the session 1987-88. Full time M.Tech. degree course in Water Resources (Civil Engineering Dept.) was introduced in 1989-90.

Today, the Institute is proudly conducting 15 B.Tech. programs, 17 M.Tech. Programs and 3 M.Sc. besides MBA, MCA & Ph.D. programs in all disciplines of engineering, sciences and humanities & social sciences. Since the very inception, the Institute has a commendable record of nurturing the enormous talent of this country and providing them with the best of technical education. In the course of this journey, the Institute has contributed immensely to the technical education, Research & Development and consultancy.

In addition to providing instruction in various disciplines of Engineering and Technology at the undergraduate level and Postgraduate level, the Institute offers excellent facilities of research in the emerging areas of science and technology.

**The Campus:** The campus extends over an area of about 300 acres and presents an impressive blend of modern architecture and rural landscape. It has been organized into three functional sectors; Residential sector for the students (Hostels), Instructional sector, and the Residential sector for the staff.

**Hostels:** Being a residential institution, hostel accommodation is available for students. Accommodation in P.G. Hostels are provided to M.Tech. & M. Sc. Students. There are eleven hostels for the boys, and four for the girls. A few hostels are proposed for construction.

#### **Infrastructure Facilities**

The infrastructure is geared to enable the Institute to turn out technical personnel of high quality. The Infrastructure facilities include eight blocks and a workshop. Each block has within it, offices for the staff, lecture halls, tutorial rooms, and various laboratories. As a new addition to this infrastructure, a mini auditorium, an examination hall, and a Senate Hall have been added. One more Lecture Complex is under construction. The construction work of the Business Administration and the Computer Applications blocks have already completed. Some of the other major new facilities developed are as follows: Air-conditioning of class rooms, examination halls have been completed. Second phase is initiated; Roof-top solar plant of 1 MW capacity has been commissioned; Solar Geysers in the hostel sector have been made functional; Sewage Treatment Plant has been operationalized; An Automatic Weather Station and Monitoring System has been established in the school of Renewable Energy and Efficiency etc.

#### **Centre of Excellence**

Realizing the need of CoEs in academic, research and laboratory & overall development of the Institute, areas were identified keeping into consideration the strengths of the faculty and existing facilities, the initiatives were taken and which now started yielding results. The detail of center and organization progress is as under: Aeon Centre of Excellence: AEON Learning PVT. LTD. Bangalore; Siemens Centre of Excellence: Siemen Private Limited; Geo-spatial Centre of Excellence: Environmental System Research Institute India; Earthquake Engineering Facility Centre: Bangalore Integrated System Solutions (BISS) Pvt Ltd, a subsidiary of Illinois Tool Works (ITW), USA; 3-D Printing Solutions Centre of Excellence: Proposal received from 4 companies; CAE Centre of Excellence: Altair Engineering Inc., USA; IOT Incubation Center: To be funded by NIT Kurukshetra Alumni batch of 1968-73; High Voltage Engineering Centre of Excellence: Megger India Private Limited; Cyber Security Centre: Under Atal Innovation Mission

**Residential Sector:** The Institute provides almost a hundred percent residential facility to its faculty, and fifty percent to the non-teaching staff.

#### **The Place**

Kurukshetra - the land of the Mahabharata, has traditionally been the epicentre of learning. It was here that the message of the Bhagvad Gita is believed to have been delivered by Lord Krishna. With a legend attached to every corner, Kurukshetra is a premier centre of pilgrimage for Hindus. In addition to its spiritual significance, the town has steadily developed into a centre of academic excellence, and occupies a place of privilege on the academic map of the northern region, especially in Haryana.

#### **Location**

Kurukshetra is a rail junction on the Karnal-Ambala section of the Northern Railway. It is about 160 kms from Delhi. The Institute is situated on the Pehowa road, about 6 kms from the Railway station. The nearest road junction is Pipli which is on the Sher Shah Suri Marg (National Highway No.1). ## Attendance, Evaluation, Examination and other rules

### Credit-based System of Evaluation

The Institute follows a credit-based system of continuous evaluation. The brief details of this system are given below:

#### 1. Registration

- A. Every student is required to register at the commencement of each semester on the dates fixed and notified by the Dean (Academic). The registration process is coordinated by the academic section of the Institute. The students submit the registration form (except in first semester) in their respective departments which is then forwarded to the academic section.
- B. Only those students are permitted to register who have:
  - i. Cleared all fees and dues of the Institute, library and Hostel (if resident).
  - ii. Not been debarred from registering for a specified period on any ground by the competent authority.

#### 2. Credit Counts

All Courses have a credit count and teaching of subjects is reckoned in terms of credits. The number of credits of a course of are ordinary calculated as:

- a. Lectures/Tutorials: One Lecture/Tutorial per week is assigned ONE/HALF credit.
- b. Practical's: One lab period per week is assigned HALF a credit.
- c. Seminar/Colloquium/Group Discussion/Project: same as for practical.

#### 3. EVALUATION PROCESS

Based on the performance of a student in a course evaluated through class-work, two mid semester examinations and an end semester examination, a letter grade for that course for the semester is awarded to a student.

Further, since each letter grade awarded to the student indicates the level of performance in that course, it has an assigned Grade Point for the purpose of computing the Cumulative Grade Point Average (CGPA) as given below:

Marks obtained & Letter Grade	Performance	Grade Point
$85 \leq A+ \leq 100$	Excellent	10
$75 \leq A < 85$	Very Good	09
$65 \leq B < 75$	Good	08
$50 \leq C < 65$	Average	06
$40 \leq D < 50$	Pass	04
$0 \leq F < 40$	Re-appear	00

Cumulative Grade Point Average (CGPA) is the weighted average of all the grades and computed as follow:

$$CGPA = \frac{\sum C_i G_i}{\sum C_i}$$

$C_i$  denotes credits assigned to  $i$ th course and  $G_i$  indicates the Grade point equivalent to the Letter Grade obtained by the student to the  $i$ th course.

The Percentage of marks obtained by a student can be calculated as = CGPA multiplying by 9.00.

## BRIEF PROFILE

The Department of Civil Engineering of National Institute of Technology, Kurukshetra (Formerly Regional Engineering College, Haryana) started functioning from the year 1963, when the first batch of students were admitted to the five-year B Sc. Engineering Degree Course. In 1966, M Sc. Engineering Degree Courses in the specializations of Structural Engineering and Constructional Techniques; and Soil Mechanics and Foundation Engineering were started. The first registration for the degree of Doctor of Philosophy in Civil Engineering was done in 1967.

The Institute switched over to a four-year B Tech Degree Programme from 1985. The M Sc Engineering programs were also renamed as M Tech programs. In 1989, M Tech Degree Course in Water Resources Engineering was started.

Three Year Special Degree Course, “Bachelor of Engineering” for In-Service field engineers holding Diploma in Engineering was introduced from the Session 1982-83. The course was fully funded by Govt. of Haryana. The Govt. of Haryana has discontinued this course w.e.f 2001-02.

Master of Technology in the specializations, Transportation Engineering and Environmental Engineering were started in 2005.

Several electives are offered to the students to enable them to specialize in more than one field. Along with that, the entire 6th semester is dedicated to industrial training, so the students can understand the practical applications in the industry. The students are assigned a “major project” in their 7th and 8th semesters, wherein they carry out development that includes the design, fabrication, and testing of components and systems. The faculty members supervise this work.
2. **B. Tech-M. Tech dual degree in Electrical Engineering (5 years)** From AY 2024–25, the Department of Electrical Engineering has introduced a 5-year UG-PG dual degree program in Electrical Engineering with an intake of 12. The students of this course will undergo rigorous training in the core areas of electrical engineering for the UG course and higher studies in the three specialized branches namely Control Systems, Power Systems and Power Electronics and Drives. The students will have to undergo a UG major project and PG dissertation to complete the requirements for the award of the Integrated UG and PG degree of the department.
3. **B.Tech. Sustainable Energy Technologies** The Department of Electrical Engineering has initiated a new B. Tech program in Sustainable Energy Technologies, which will be offered from the session of 2024-2025 with an initial annual intake of 60 students. It is an emerging field of engineering dealing with alternative/sustainable energy technologies and energy-efficient technologies for sustainable growth of the energy sector. The primary goal of the B.Tech. The program in Sustainable Energy Technologies is to provide students with engineering skills, a knowledge base, practical knowledge etc. on how to harness sustainable energy resources, most economical energy utilization in an environmentally friendly way, in order to supplement or complement depleting conventional energy resources. **Brief Introduction to various Software capabilities is:**

1. The **OPAL-RT** real-time simulator is a tool, which can be used to perform real-time simulations in the areas of power systems, renewable energy and power electronics. It can be used in Hardware in loop (HIL) and rapid control prototyping (RCP) for conducting experiments with various systems.
2. **dSPACE** is the Rapid control prototyping tool, which enables the user to control any system by mathematically modelling the controller and integrating the plan to be controlled by means of controller card.
3. **LabVIEW** with add on Hardware (Multisim Software for Circuit Simulation, Ultiboard software for PCB Design, National Instruments ELVIS II, QUANSER QNET DC Motor Control Board for NI ELVIS-An add on Board on ELVIS used for DC Motor control applications & experiments, QUANSER QNET Rotary Inverted Pendulum-An add on board on ELVIS, Sensors-(Thermocouple, RTD & Accelerometer etc.), Wireless Sensor Network starter kit, DAQ Cards for different sensors (accelerometer, thermocouple RTD, load and strain, voltage measurement) and multifunction, ARM

Microcontroller Teaching Kit, Robotics starter kit, Wi-Fi-9211 A DAQ Card) can help to carry out from basic data acquisitions. LabVIEW is system design software that is used by engineers and scientists to efficiently design, prototype, and deploy embedded monitoring and control applications.

4. **GAMS**: The General Algebraic Modelling System (GAMS) is specifically designed for modelling large, complex problems. GAMS allows the user to concentrate on the modelling problem making the setup simple. The system takes care of the time-consuming details of the specific machine and system software implementation. GAMS is especially useful for handling large complex, one-of-a-kind problems in a highly compact and natural way. The user can change the formulation quickly and easily, can change from one solver to another solver, and can even convert from linear to nonlinear with little trouble.
5. **EUROSTAG** software dedicated to the accurate simulation of the dynamics of all electric power systems.
6. **PSCAD** becomes an indispensable tool for a variety of power system design and studies. It is a multi-purpose tool. It is equally capable in the areas of power electronic design and simulation power quality analysis.
7. **PSIM** teaching and research in power electronics
8. Keil C51 is the industry-standard tool chain for all 8051-compatible devices, it supports classic 8051, Dallas 390, NXP MX, extended 8051 variants, and C251 devices. The micro-Vision IDE/Debugger integrates complete device simulation, interface to many target debug adapters, and provides various monitor debug solutions.
9. **PCIMD** Design and Analysis of Electrical Motors
10. **20-SIM** is a modern modelling and simulation program that runs under Microsoft Windows. With 30-SIM the behaviour of dynamic systems, such as electrical, mechanical and hydraulic systems or any combination of these can be simulated.

➤ **Finance Lab**

With the recent exponential growth in the Fintech industry, it is expected that the industry will have a CAGR of 6% in 2022 and our students need to be in pace with that industry. Students need to learn how to manage their finances, how to invest in the right way, and know the appropriate platform to

invest. Merely having a theoretical and practical knowledge about different fields of investments is not sufficient in today's world. The modern financial world requires students to be equipped with greater analytical capabilities and strong decision-making skills.

The finance lab set up by the NSE Academy provides advanced trading simulation to the students. The lab has installed an application called NSE SMART, developed by the NSE Academy that provides a quality interface and allows effective engagement for the learner. The prime focus of the lab is to help students in building analytical capabilities and strong decision-making skills. This lab accustoms students with the practical application of their theoretical knowledge gained through classroom teaching.

**Purpose of finance Lab:**

- The lab provides an opportunity for the students to learn the application of the theoretical bases which they covered in the curriculum with the help of our lab's trading simulations.
- The students are specifically instructed to value various equity and debt instruments, select the securities with potential growth and build a portfolio.
- The students are encouraged to learn how to perform fundamental analysis, technical analysis, valuing equity and debt instruments, measuring the portfolio performances and more.
- Evaluate whether the stocks are undervalued or overvalued
- Look into the other economy wide influences on capital market and consider them while decision making in the perspective of an investor.

**Features of Finance Lab:**

- The lab has 14 well-equipped computers with an installed application called NSE SMART developed by the NSE Academy
- The finance lab provides advanced trading simulation to our students.
- The simulation is designed in a way, where the user feels the trading to be as close to the real stock market.
- The lab enables students to keep track of various securities and trade these securities without the risk of losing real money.
  
- **DRDO Lab**

Stress has a powerful impact on various aspects of individual's life-not only can it affect our mood, energy level, relationships, and work performance. It can also cause and exacerbate a wide variety of

health conditions. Individuals may feel down or anxious and that's normal too for a while. So, it has become imperative that in each sphere of life stress should be managed. Taking into consideration all the negative effects of stress DRDO Lab has been designed to know the stress level of individuals at NIT Kurukshetra. The DRDO Lab consist of given below equipment:

- Spirometer
- Heart rate variability (HRV)
- Body composition analyser (BCA)
- Cognitive function assessment

The above-mentioned equipment will help us to assess the physiological parameters. All the physiological parameters will help us to know the heartrate, blood pressure, respiratory rate skin conductance and lung function. Here overall research will be helping us to know the level of stress by conducting a pre and post analysis for it. The Lab will help us to know the stress level prior to giving the treatment (yoga) and again the results will be checked after it. The observation taken through this Lab will help all type of individual (Teachers, Non-teaching staff and students) that are part of NIT Kurukshetra.

➤ **Student Committees and Clubs**

The students participate through various committees and clubs in Institute affairs such as Students Advisory Committee, Placement Advisory Committee, Internship Advisory Committee and Alumni Relations Committee. Another Society, MEXPERT is a post graduate society, mainly formed for the post graduate students of the Institute. Through this platform, students get opportunities to showcase their talents, innovative ideas and learn to foster team efforts. The mission of the society is to create bridge between alumni and present batches for mutual support and cooperation, to transform dormant individual into through extrovert brimming with energy and derive to be leaders propelled by values. To extract every chunk of talent out into open, by way of never-ending streak of innovative event. There are three Student Clubs of the department i.e. VyavHaar (HR Club), Bulls and Bears (Finance Club) and Parivartan (Marketing Club) to develop their skills, knowledge and abilities by updating themselves with the current trends.

➤ **Industrial Visits**

Industrial visits are one of the major strengths of the department in which students make two visits in a year to acquaint them with corporate working. Students had visited to various companies such as Indian Oil Corporation Ltd (Panipat), BILT (Yamuna nagar), Mohan Meakin Limited (Himachal Pradesh)

North Indian Railways (Yamuna nagar), Parle Biscuits Pvt. Ltd (Bahadurgarh), HMT (Pinjore), Vardhman Mills (Baddi), Yakult Danone (I) Pvt., Ltd (Sonipat), Coca Cola (I) Pvt. Ltd (Saha), Coca Cola (I) Pvt. Ltd (Baddi), Prime Steel process (Ludhiana) and Mahindra & Mahindra Limited, Mohali, Punjab

➤ **Summer Training**

With the intent of providing Industrial exposure to the students, the department arranges summer training in reputed organizations. Summer training, which is of 6 to 8 weeks' duration, helps in gaining valuable exposure and understanding the corporate world. Some national level companies who are giving summer training to our students are: Tata Motors, Poonam Drums and Containers Pvt. Ltd, Mumbai, RSWM Limited, Sycom projects private limited, BHEL, ONGC, Ernst and Young, Rhi Magnesita India Limited, Delhi art gallery, Gawar construction limited, and Moustache Escapes.

➤ **Placement**

As a result of the institute's legacy of over 60 years as a premier of centre of technical education, its graduates have enjoyed more than 80% placement. We strive to carry this legacy forward in our MBA programme as well. There is a dedicated team of faculty and students which work together to ensure that the best companies come to the campus. Few of the companies who recruited our students are: Crowe, Trav Clan, WNS, Tata Autocomp Systems, Ujjiva-Small Finance bank, Tenhard India Pvt. Ltd., orwhit Solution Pvt. The prime objective of industrial relations team is to fortify the relationship between the institute and the Industries/organizations by nurturing win-win situation for both. In broader notion, the team is pledged to act as a catalyst by advancing synergy between the industry and academics stakeholders, by bridging the hiatus between the knowledge creation and its application. The team connect the future managers with the current one's and provide a platform for active interaction and knowledge sharing. Training and placement cell, Industry cell and entrepreneurship cell are functional under the industrial relations umbrella.

### **Training and Placement Cell**

The Training and Placement Cell (T&P Cell) is a nodal point of contact for companies seeking to establish a conducive relationship with NIT Kurukshetra. The T&P Cell consists of the Faculty In-charge, Associate Faculty In-charge, TPO, Senior Assistant, Placement Coordination Committee (PCC) members and the secretariat. PCC is constituted among the students of different disciplines. The cell initiatives include continuous interaction between industry and corporate to understand their perquisite of knowledge and skill sets. The Cell engages with the industry practitioners by inviting them for guest lectures, industrial visits, on the job training, seminars and arranging for student's projects and internships. The cell acts

as a scrum master by providing all the possible assistance to recruiters for Pre Placement Talks, Conducting Tests and Interviews to the company personnel. It also aims to fine tune the students that they require not just for placements but also as they embark on their corporate career.

### **Internship/Industrial Training/Project Work**

All students of UG branches undergo Internship/Industrial Training/Project work during their complete 6<sup>th</sup> semester. The rationale behind this is to offer students a platform to gain first-hand experience of the professional world and a hands-on opportunity to work in their aspiring field. With substantial efforts and collaboration of all Faculty Internship Coordinator and ICC members, 756 students out of 1080 have been successfully placed in various organizations for internships during the Academic Session 2023-24. The T&P Cell also laid major focus on bringing R&D exposure to the students. Indeed, around 20 students have been sent to various DRDO Labs for internship. The Faculty Mentor field visit is an imperative part of this initiative.

**The T&P cell organized three short term courses.**

- 01. Effective Communication Skills and Leadership Qualities (ECLQ-2023) during June 26-30, 2023.**
- 02. Nurturing and Testing of Employability and Entrepreneurship Skills (NTEES-2023) during October 03-07, 2023.**
- 03. Attitude, Behaviour and Career Skills for Entrepreneurship and Professional Development (ABCS-2024) during March 04-08, 2024 for the students.**

### **Campus Placement**

The T&P Cell of the Institute liaises with various industrial establishments and corporate houses to facilitate recruitment of graduating students. Placement record of the institute is remarkable. Leading National, International Organizations and PSU's like BPCL, EIL, BEML visited the institution for placement. Major recruiters are Microsoft India, Google, Adobe Systems, Salesforce, Expedia Group, Winzo Games, Texas Instrumentation, SAP labs, Wells Fargo Synopsys, Brahmos Aerospace, American Express and many more. In the current academic year 2023-2024, till now more than 388 companies visited the institute and offered jobs and internship opportunities to the undergraduate and post graduate students of the institute. The highest pay package offer is 64.28 LPA per annum given by, with an average pay package of around 13.48 lacs per annum.

# HINDI LANGUAGE AND MORAL EDUCATION

## Faculty In-Charge

Dr. Manoj Kumar Sinha

Assistant professor, Mechanical Engineering Department

भाषा संस्कृति का प्रतिबिम्ब होती है, और इसीलिए हम अपनी सांस्कृतिक पहचान को जीवंत रखने हेतु अपनी भाषा का सदैव संरक्षण और संवर्धन करना चाहते हैं। वैसे तो हम हर दिन अपनी मातृभाषा हिंदी के साथ अपने विचारों को प्रकट करते हैं लेकिन कुछ माध्यम ऐसे भी होते हैं जिनसे हमारी रूचि हिंदी के महात्म्य को समझने के लिए और भी बढ़ जाती है। छात्रों द्वारा संचालित अग्रणी छात्र समितिओं में से एक 'अनामिका' एनआईटी कुरुक्षेत्र में एक ऐसा ही माध्यम प्रदान करती है जिसके द्वारा विद्यार्थी खुद को अपनी मातृभाषा हिंदी से जोड़ पाते हैं। इसका उद्देश्य हमारी राष्ट्रभाषा को बढ़ावा देना एवं सभी को हिंदी भाषा से अवगत कराना है।

इसी उद्देश्य की पूर्ति के लिए 'अनामिका' द्वारा 'उत्कर्ष' नामक एक उत्सव प्रत्येक वर्ष आयोजित कराया जाता है। इस वर्ष उत्कर्ष का आयोजन 30 सितम्बर – 2 अक्टूबर को किया जाएगा एवं इस वर्ष उत्कर्ष का मुख्य विषय "शून्य से शीर्ष तक" तय किया गया है। इसमें विभिन्न कार्यक्रम एवं प्रतियोगिताएं आयोजित की जाती हैं जिनमें एनआईटी कुरुक्षेत्र के छात्र बढ-चढकर भाग लेते हैं। अनामिका उत्कर्ष सहित हिंदी दिवस के अवसर पर हिंदी पखवाड़े का भी आयोजन करती है जो राष्ट्र भाषा को बढ़ावा देने एवं उसके अनुष्ठान करने हेतु मनाया जाता है। हिंदी पखवाड़े का आयोजन 16 – 29 सितम्बर के दौरान किया जाएगा।

'उत्कर्ष' के इस त्रि-दिवसीय कार्यक्रम का उद्देश्य युवा पीढ़ी में हिंदी के प्रति जागरूकता लाने का होता है। एक भाषा के रूप में हिंदी न सिर्फ भारत की पहचान है अपितु हमारे जीवन के मूल्यों, संस्कृति और संस्कारों की सच्ची संवाहक, संप्रेषक और परिचायक भी है। पूरे विश्व में भारतीय संस्कृति और इतिहास के प्रचार प्रसार का श्रेय हिंदी भाषा को जाता है। इसी हिंदी भाषा से आज के पीढ़ी को जोड़े रखने के लिए हमारे संस्थान में हिंदी पखवाड़े के दौरान कई प्रतियोगिताओं का आयोजन किया जाता है। कार्यक्रम का आगाज छात्रों द्वारा गायन, नृत्य और कविता कौशल दिखाकर किया जाता है।

द्वितीय दिन कई आकर्षक प्रतियोगिताओं का आयोजन किया जाता है। इनमें से कुछ प्रतियोगिताएं निम्न हैं:

- रणभूमि
- कविता लेखन
- कविता पाठ प्रतियोगिता
- नृत्य प्रतियोगिता
- कला प्रदर्शनी
- गायन प्रतियोगिता
- वाद्य वादन प्रतियोगिता
- वाद विवाद प्रतियोगिता

इन सभी स्पर्धाओं में संस्थान के विद्यार्थियों ही नहीं बल्कि दूसरे संस्थान के छात्र भी बढ-चढ कर भाग लेते हैं। इन सभी आयोजनों से हिंदी भाषा के उस पहलु से परिचय किया जाता है जोकि काफी रोमांचक और मजेदार है। इस उत्सव के अंतिम दिन सभी विजेताओं को पुरस्कृत किया जाता है तथा हमारे संस्थान के माननीय निदेशक हम सभी छात्रों को मार्गदर्शन प्रदान करते हैं।

## **Introduction**

The NCC is a vibrant youth organization, which has made a commendable contribution in producing responsible and patriotic citizens. From a small beginning, today it has grown to the largest youth organization. CC motivates and trains upcoming generations to render their meaningful contribution towards national integration and development.

The Senate of the Institute in its 10<sup>th</sup> meeting held on 29-11-2007 approved NCC as an alternate course to Physical Education and Sports for the students of B.Tech 1<sup>st</sup> year with effect from session 2008-09. From the session 2018-19 onwards, the course code is integrated with Sports and Physical education. In current scheme, the course is of one credit in 1<sup>st</sup> semester (Course code: SWIR-11) and another NCC course is an audit course in 2<sup>nd</sup> semester (Course code: SWIR-12). The allotted strength of NCC cadets in the institute is one platoon (54), which includes cadets from NCC 2<sup>nd</sup> year and NCC 3<sup>rd</sup> year. It is voluntary to join NCC in first year, but once joined, the cadet will have to complete NCC courses as mentioned. In new National Education Policy (NEP 2020) government has emphasized on Sports, Yoga and NCC also. In line with this, our institute has also introduced Physical Education/Sports/Yoga and NCC as an integral part of the curriculum with 01 credit each in NCC, Sports and Yoga.

**Selection & Reservation:** Induction of students in NCC is based on physical fitness, psychology and general aptitude. 33% seats are reserved for girl students.

Institutional training is imparted on every Wednesday and Thursday beyond class hours or in the morning or in the evening by defense officers from NCC, cadets get payment for refreshments as per NCC rules.

# **VIDYA LAKSHMI PORTAL FOR SCHOLARSHIPS AND EDUCATIONAL LOANS**

With a view to enable all poor and middle class students to pursue higher education of their choice without any constraint of funds, the Govt. of India has set up a fully IT based Student Financial Aid Authority to administer and monitor Scholarship as well Educational Loan Schemes, through the Pradhan Mantri Vidya Lakshmi Karyakram. This is to ensure that no student misses out on higher education for lack of funds. The IT based mechanism provides to students a single window electronic platform for Scholarships and Educational Loans.

Vidya Lakshmi is a first of its kind portal for students seeking Education Loan. This portal has been developed under the guidance of the Department of Financial Services, (Ministry of Finance), Department of Higher Education (Ministry of Human Resource Development) and Indian Banks Association (IBA). The portal has been developed and is being maintained by NSDL e-Governance Infrastructure Limited, Mumbai. This Portal is totally students-friendly and students can view, apply and track the education loan applications to banks anytime, anywhere by accessing the portal. The portal also provides linkages to the National Scholarship Portal.

*Those students who are interested to apply for educational loan and/or national scholarships may visit the Vidya Lakshmi Portal at [www.vidyalakshmi.co.in](http://www.vidyalakshmi.co.in)*

The General Administration Section of the Institute deals with the matters concerning insurance under this policy.

# **STUDENT MENTORSHIP PROGRAM**

The Student Mentorship Program has been introduced in the Institute from the academic session 2017-18 with the primary objective of enabling constructive and positive interaction, guidance and mentorship of students by the mentor faculty.

Faculty mentors can play an integral role in observing and monitoring student progress and serve as guides throughout students' stay in the Institute. Besides, the peer-to-peer mentorship and tutoring also may work well, since students feel comfortable with other students. Accordingly, the B. Tech. students of each engineering department have been divided into groups, keeping in view the proportionate strength of the teachers of respective departments, with each group comprising almost equal number of students from second, third and final years. The number of students in each group is in the range of 15-20. Every next year the passing out final year B.Tech. students will be replaced by an equivalent number of new students entering second year in the branch. Each group is assigned one faculty mentor from the respective engineering department who will remain associated with the group, as mentor, for the entire duration of the stay of the student. Thus, the mentoring process emphasizes 'vertical' integration with senior students mentoring juniors and facilitating student-faculty interactions with faculty acting as mentors to the student groups.

The B. Tech. first year students have been divided into groups, section-wise, to be mentored by the faculty members from the departments of Physics, Chemistry, Mathematics and Humanities & Social Sciences, as most of the courses in B.Tech. First years are related to and taught by these departments.

The mentor-mentee process can help establish a close relationship with the students, orienting them regarding institution practices and monitoring their progress through semesters. Students in all four years may need this guidance as different problems develop at different times. The relationship is more informal than formal, allowing students to ask for help when they need it and share their problems without fear. The Faculty mentor could identify any academic or non-academic reasons for a student's weak or declining performance, and accordingly advise her/him on appropriate remedial measures. The Faculty mentor can also mediate between a student and other faculty, if necessary, or seek help from HoD, Dean, Director or any other official and get in touch with parents when necessary.

*The following guidelines are observed in the Mentor-Mentee process:*

- The groups which are formed function as mentor- mentee networks. A student should feel free and be encouraged to approach his / her faculty mentor, when facing any kind of problem, whether academic / non-academic.
- Mentor faculty hold meetings with all the students in the group at least once in a month, except during vacations, and keep record of all such meetings and issues raised therein.
- The mentor faculty address the issues / complaints / concerns of the student(s) of the group and try to resolve / provide the solution, to the extent possible, with the help of the concerned faculty/staff/official of the Institute.
- The specific issues which require the attention of higher authorities, can be brought to the notice of higher authorities through the respective HoD for possible redressal / solutions.
- The name of the student(s) providing feedback / raising any specific issue, may not be disclosed, if it is so felt.

# **STUDENT'S COUNSELING**

In today's highly competitive environment, the growing pressure to excel in every sphere, often leads to psychological turmoil in a person. If we consider the case of engineering students, after the triumph in one of the toughest exams in the country, when the adolescent students enter the elite engineering institutions like IITs and NITs adjusting to the new environment and managing academic, personal and social demands, may induce high levels of stress and anxiety. In an institution of national importance like NIT Kurukshetra, which attracts students from all over the country and abroad, these stressful situations may surface all the more frequently, because a student is away from his/her protective social environment. There have been a few such cases in the Institute in the recent past. Although the teachers are generally available for mentoring and counselling, a specialized, professional approach was required to help students deal with specific psychological problems and execute appropriate follow-up procedures. Realizing the fact that a Counselor with professional training is much better equipped to help the students deal with a wide range of concerns, including tackling personal, emotional, family and peer related problems, as well as managing the challenges of maintaining a high level of academic performance, the appointment of a Counsellor – a qualified psychotherapist – was, therefore, considered very necessary.

Psychological issues are not limited to the students alone; the faculty, the staff and their dependents often succumb to the rigors of life and seek expert advice in overcoming them. Therefore, for them as well, the service of a professional Counsellor is most desirable.

In view of the above, a qualified Counsellor- having Ph.D Degree in Clinical Psychology; MA(Psychology); Advanced Diploma in child Guidance & Counselling and PG Diploma in Mass Communication, has been engaged on contract basis for a period of one year, who is providing counselling services to the students of the Institute.

## **Establishment of Thought Laboratory in the Institute:**

In the wake of recent upheavals in the society-crime against children & women, massive drug abuse in today's youth, alarming suicide rates among young adults, widespread depression to the extent of becoming W.H.O.'s major concern is but tip of ice berg in the life of a child, adolescent and young adult and the challenges faced by them are many and the current technological tools are adding fuel to fire. The present education system teaches how to read, write and speak but does not focus on emotional strength. So, there is a lack of achievement in behavioral, management and social skills from this learning. In order to bridge this gap, there is scope for all-round Personality Development in National Education Policy 2020.

Therefore, a Thought Laboratory has been set up in our institute which was inaugurated by Hon'ble Governor of Haryana on 10.05.2022. **Guidelines regarding Personal Display of Affection (PDA)**

OFFICE OF THE DEAN (STUDENTS' WELFARE)  
NATIONAL INSTITUTE OF TECHNOLOGY KURUKSHETRA

No. Dean (SW)/2023/210

Dated: 31.07.2023

**ADVISORY TO STUDENTS**

It is understood that institute can be a time for exploration and personal growth, however, it is important to remember that the institute is a place for education and academic pursuits. Public Display of Affection and engaging in private activities in academic areas, restrooms and poorly lit areas as well as anywhere on and around the NITK campus, can make others feel uncomfortable and distract from the educational environment. Additionally, such activities, whether they are consensual or not, are not appropriate to be conducted on institute property. The institute has strict policies in place to ensure the safety and well-being of all students and staff, and any violation of these policies will result in disciplinary action.

Public displays of affection and private activities can affect others in a number of ways such as:

1. **Uncomfortable atmosphere:** Public Display of Affection and private activities in public spaces can make others feel uncomfortable and embarrassed, which can lead to a negative and hostile environment.
2. **Distraction:** Such actions can distract others from their academic pursuits and affect their ability to focus on their studies.
3. **Violation of personal space:** Public Display of Affection and private activities in public areas can invade others' personal space and make them feel violated.
4. **Disrespectful behavior:** Engaging in Public Display of Affection and private activities in public spaces is often seen as disrespectful to others and can harm community relations.

It is important to be mindful of our actions and how they may affect those around us.

Hence, all students are encouraged to be respectful of others and to maintain a professional and educational atmosphere on campus. If any student has any question or concern, he/she may not hesitate to reach out to the Dean (Students' Welfare) Office.
