

(Certificate by Indentor)

Subject: Undertaking for category available/suggested on GeM "**not matching requirements**".

Indent No. _____ Dated: _____

I, _____, the Indentor, checked personally with the official of Stores and Purchase Section and undertakes that the category available/suggested on GeM is "not matching my requirements".

Further, it is certified that I have thoroughly checked all probable categories suggested by GeM and I am satisfied that the product required is not covered/does not fall in any of the suggested categories and cannot be procured under any of these categories even after inclusion of List of Values (LOV) wherever possible in category specifications of suggested categories. It is also certified that the technical specification requirements are such that these cannot be covered even by adding specification parameters using ATC in any of the GeM suggested categories. **This is a one-time requirement; hence, new category creation is not proposed, / or requirement is not recurring, but request for new category creation will be submitted separately post generation of GeMARPTS.**
